Discovering DAM: Asset management savvy	**LB1**	Dive into the world of Digital Asset Management with Brandfolder by Smartsheet, the world's #1 DAM platform. This session will unveil the untapped potential of DAM, showcasing its pivotal role beyond just marketing and creative spheres. Discover the strategic insights that led Smartsheet to choose Brandfolder as the cornerstone of content management excellence. Tailored for Europe's forward-thinking professionals, this presentation is your gateway to DAM expertise and unlocking new efficiencies in your organisation.
The transformative impact of generative AI	**LB3**	Learn how the artificial intelligence that's being incorporated into Smartsheet will help you eliminate many of the time-consuming manual tasks typically involved in collaborative work.
The Smartsheet product vision: A look ahead	**LB5**	Discover our vision for the future of the Smartsheet product. You'll get a preview of upcoming innovations and enhancements, and learn how you can get involved to help shape our product roadmap.
Beginner track		
Formula fundamentals: Building blocks for data analysis	**LB2**	Formulas have the power to take your solutions from good to great by saving you time and helping make more informed decisions. Together we'll review essential formulas for automating and analysing sheet data and the best practices required to write them yourself or with the support of AI.
Learn how to build, organise, and collaborate with workspaces and WorkApps	**LB4**	In this session, you'll learn how to organise, navigate, and share your Smartsheet assets with workspaces and WorkApps for better collaboration and outcomes.
If you build it, will they come? Tips to boost engagement	**LB6**	Get tips on how to get colleagues, stakeholders, and customers to view or update your sheet. Learn how to share assets, schedule reminders, set up automatic approval and update requests, view change history, publish dashboards, and have in-product conversations about work to power effective team collaboration.

Intermediate track		
Automate and scale your project portfolio with Smartsheet	**LI1**	Unlock the full potential of Control Center. This session is perfect for both Control Center users and those considering it for the first time. We'll demo the product and explore best practices and strategies to optimise project consistency, visibility, and scale. By the end of this session, you'll be equipped with the knowledge and tools to drive successful portfolio outcomes.
Resource Management for everyone: Level up and unlock your team's potential	**LI2**	Wondering how to set up Resource Management successfully? In this session we will cover how to gain greater visibility into your people, align the right skillset to your projects, and boost team productivity to drive successful project outcomes.
Smartsheet Administration: Creating an efficient experience for everyone	**LI3**	For every Smartsheet plan there is a Smartsheet Administrator (or two). There are many paths that lead Smartsheet users to explore optimising and organising their account administration, and we're here to help you on that journey. Whatever your admin adventure looks like, join us to equip yourself with the right skills and knowledge to manage users and licenses, establish global account controls, apply customisations that are unique to your brand, and more!
It's time to stop copying and pasting: Learn how to work efficiently and securely with your data	**LI4**	In this session, you'll learn how to bring data from external sources into Smartsheet. Additionally, you'll learn efficient methods for moving and referencing data within the platform. We'll demonstrate an end-to-end flow, referencing a customer use case, so you can visualize how these tools can help you when you return to work next week!
Automate and manage your multi-step processes with Dynamic View	**LI5**	Streamline and automate your multi-step processes like ticketing, approval requests, and stakeholder management with Dynamic View. In this session, we'll review hands-on best practices for building your process, optimising it for your unique business needs, and enabling dynamic security.

Intermediate track, continued		
Smartsheet charts unpacked: Elevate your dashboard game	**LI6**	Explore the art of transforming data into clear and impactful charts with Smartsheet dashboards. Learn to choose the most effective chart types based on data characteristics, category numbers, and most importantly, the specific business question you aim to address. You'll even learn some techniques to create 'bonus charts.' Suitable for beginner and intermediate dashboard creators.
Design stunning and insightful dashboards	**LI7**	Learn how to weave together your charts, summaries, and key information in a way that's visually pleasing and optimised for your use case. We'll dive deeply into layout design and how color can be used to take your dashboards to the next level. Together we'll transform your Smartsheet dashboard into an informative, stunning visual masterpiece.
Intake to archive: The anatomy of a complete solution	**LI8**	In this session, we will guide you through each step of a common project intake process, demonstrating how to create a complete workflow in Smartsheet: From diagramming your solution to creating forms, automating the various steps to visualising data with reports and dashboards.
Unleash the power of precision locating using INDEX/MATCH/COLLECT	**LI9**	Do you need to bring data together from one or multiple sheets to another based on specific criteria? This session shows you how with a combination of INDEX/MATCH/COLLECT functions so you can say goodbye to VLOOKUP for good.

Advanced track		
Smartsheet on Smartsheet: ENGAGE London registration tracking	**LA1**	Updating senior leadership on the progress of a customer conference — including attendee numbers, revenue, attendee demographics, and more — can be a laborious and time-intensive task. Discover how Smartsheet streamlines this process, requiring less than five minutes of manual work per week.
Getting started with Bridge: Take your automation to the next level	**LA2**	Are you an automation fanatic ready to take your love of process efficiency to the next level? Join us as we cover advanced automation essentials and help you tackle building your first Bridge workflow.
Creative solution ideas with Data Shuttle and DataTable	**LA3**	This interactive session will showcase how you can use Data Shuttle and DataTable together to consolidate multiple data sources and distribute them within Smartsheet. You'll learn how to build a scheduled upload workflow from multiple sources to a DataTable and how to parse that data into different projects using DataTable lookup mode. Plus, you'll get insights into best practices and a sneak peak at what we're building for release this year based on your feedback.
